Description

These new freestanding banners are perfect for wayfinding to the entrance. The heavy and coated base makes sure this item stands up to many types of weather. The textile banners give this item that high quality finish. The double-sided version makes sure both sides of the product are fully covered and no one can see inside the frame.

TOTEM DOUBLE-SIDED

Freestanding outdoor
Description
Looking for exposure from every angle? Here you go! These can be used for branding, sponsorship and directional purposes. With the frame being barely visible, this is a very good looking item. A heavy construction inside makes sure it will not move an inch, while the high quality textile banners make sure you will not see anything of the inside.
Freestanding Frame

Description
This item is best placed along a wall to the entrance. It consists of trussing and a textile banner that is folded around the construction to hide it. Weighed down by concrete for extra stability, this large item will definitely stand out!

Specifications:
- M: W 5000 x H 3000 mm
  Rate £ x,xxx
- S: W 3000 x H 2000 mm

Description

Placed on a large base, this billboard is a bit higher up so it is easily visible from far away. All billboards are double-sided and have internal lighting for exposure when it is dark as well.
MEGA BANNER

Description
High impact exposure! Everyone will notice this object, which can be placed on the front squares near the entrances. All visible sides will be branded with textile banners so this huge object looks high end from every angle.

**Description**

For people coming from RAI Train- and Metrostation this is the first branding item they will encounter. When visitors see the colours they recognise from earlier communications, they will feel welcome and know they are on the right path. It is a great way to introduce the brand they know and the event colours that go with it. The textile banner in a slim frame gives this a smooth look.

Description

This banner can be placed in one of the fixed frames all around the venue. More than 80 square meters of exposure from just one banner! As shown in the photo, there are two of these frames above each other on Hall 1. Please see the map for the locations of all the frames.
Description
This huge banner can be installed on the front of Hall 1. The two frames on Hall 1 can be linked to create one big frame, resulting in more than 180 square meters of exposure.
**Description**

Next to Entrance C there is a spot ideal for a large banner. This is usually branded by sponsors as this option is directly to the main entrance. Who doesn’t want to have their brand directly at the event entrance?
Description

Next to Entrance F there is a spot ideal for a large banner. This is usually branded by sponsors as this option is directly to the main entrance. Who doesn’t want to have their brand directly at the event entrance?
Description
This porch banner is situated at entrance C. When you turn the corner onto the front square, this item will be clearly visible and higher up than many of the other items. With almost 20 meters in length, it spans quite a large area, which ensures a lot of people will notice.
Description

If you are using one of the entrances at the back of the RAI, everyone will have to use the drywalk. You can be certain every single visitor will pass this area, ideal for branding. Tip: If you order multiple you can actually tell a story all the way to the entrance. Drywalk banners can be hung at the top of the drywalk. The drywalk leads from the corner of Entrance C to entrance E, F, G and Strand Zuid. The drywalk can used by visitors from multiple events, hence why no exclusivity is to be given here. The only way to ensure exclusivity is to fill (almost) every position.

Also check out Page 12
Description

If you are using one of the entrances at the back of the RAI, everyone will have to use the drywalk. You can be certain every single visitor will pass this area, ideal for branding. Tip: If you order multiple you can actually tell a story all the way to the entrance.

Drywalk banners can be hung at the top of the drywalk. The drywalk leads from the corner of Entrance C to entrance E, F, G and Strand-Zuid. The drywalk can be used by visitors from multiple events, hence why no exclusivity is to be given here. The only way to ensure exclusivity is to fill (almost) every position.
Description

If you are using one of the entrances at the back of the RAI, everyone will have to use the drywalk. You can be certain every single visitor will pass this area, ideal for branding. Tip: If you order multiple you can create a ‘tunnel of branding’. Drywalk banners can be hung at the side of the drywalk. The drywalk leads from the corner of Entrance C to entrance E, F, G and Strand-Zuid. The drywalk can be used by visitors from multiple events, hence why no exclusivity is to be given here. The only way to ensure exclusivity is to fill (almost) every position.
**Description**

At the taxi stand, people will be waiting. An ideal moment to attract their attention and show them your brand. The above costs are for the installation of two banners for one unit. This taxi waiting stand can be placed as you wish. The exact location will be determined in cooperation with RAI. The image shows 2 units, so a total of 4 banners.
Description

This item is a key RAI landmark. The lowest ring can be branded with large banners. There are a total of 6 positions available.
Description

When using Entrance C, this position is a must-have! Available in various sizes, with the Large being the absolute maximum of what is possible there. The truss is assembled after which the banner is wrapped around it. Everything will then be rigged on the hanging points a little bit forward of the revolving doors.
**Description**

Entrance K had no fixed branding opportunity, so Partnion decided to come up with one. A construction with 3 banners on the top, creating one large image. The pillars of the truss can also be covered for a smoother finish. It is an absolute must-have when using Entrance K.
Description

If you are using Entrance R, this is the item you are looking for. 27 square meters of exposure right above the entrance!

Looking for something different at Entrance C? Here you go! This is even larger than the largest banner we can place here as we brand all of the windows. As you can see, this has a great impact and whether you use darker colours or very bright ones like in the image, this will definitely stand out.
Description

These windows to the right of Entrance C can be branded for maximum exposure. It is a very prominent position which is ideal for sponsor branding.
Description

Using Entrance D as your main entrance? Now we can do something here as well. As it is the RAI personnel entrance as well, you are sure to have enough exposure.
**Description**

On the RAI congress centre, Auditorium, there are large windows that can be branded. They can actually be seen from the beginning of the drywalk and many clients using the congress centre brand these windows.

Description
The windows at the top of Hall 12 can be branded for great brand awareness. Ideal for sponsorbranding with a theme.
Description

The Elicium can be branded with stickers on both sides. These graphics are very high up and can be as large as you like. Ask for the many examples. With the 80+ square meter M version to the 333 (!) square meter XL version, this will definitely catch the eye of all visitors and other people passing by.
Description
The Elicium can be branded with stickers on both sides. These graphics are very high up and can be as large as you like. Ask for the many examples. With the 80+ square meter M version to the 333 (!) square meter XL version, this will definitely catch the eye of all visitors and other people passing by.
Description

All of the windows on the largest hall of the RAI can be branded. The windows in the photo are the ones to the right of the mega banner frame (A3.004), but the windows on the left can be branded just as much. Other configurations on request!
Description

All the lower windows of the Amtrium can be branded to create one big message. Costs are per set of 6 windows and there are a total of 7 sections available. Together with A5.012T, this results in a huge branding opportunity.
Description

Using the Amtrium? All of the windows of the Amtrium tower can be branded with vinyl. It is a great addition to the 7 sections of lower windows that are also in the image. Those windows are specified on the next page.
WINDOW STICKERS P4

Description
The entrance/exit of the new parking garage of the RAI can be branded entirely for great effect. A last reminder of your brand before the visitors leave. The Small size is the size for just one window. This is the entrance to the P4 parking garage, which can be branded in many different sizes.
Description
RAI has a flyover that leads people from the Holland side to the Europe side of the venue. These windows can all be branded with vinyl. The one on the photo overlooks Strand Zuid, which has a large outdoor area where people can relax and look at your advertisement!
Description
For people coming by car, this is the first moment to get their attention. While they are waiting for the barrier to open, they are automatically drawn to your message. Please be advised that visitors will pass these barriers when entering and leaving, so two types of designs might be profitable. This is a great way to reach all visitors coming by car, it is the first branding item they will see.
Description

These outdoor floor graphics can be placed anywhere you like. You are also free to choose your own size and shape. Please be advised that the placement of this item is highly dependable on weather conditions.
Special items

Outdoor
Description

Besides all of the print items we produce and install, we also offer digital options. This digital billboard can be placed anywhere you like and will definitely stand out. The advantage is that you can change content as much as you like: you are in control throughout the event!
**Description**

Foam prints in any colour, shape and font you like! This is the item all of the visitors will take pictures off. Ideal for some extra social media attention as well, besides being a very interesting item. When I say any colour shape and font, we really do mean it. Ask your account manager for the possibilities!

W 1650 x H 2600 mm
Description

This is the most used item of all and perfect for branding or directional. These freestanding panels are available in two sizes and are easy to move or switch. They are used for directional purposes and also to indicate room names or session programmes. They consist of a black coated base with a non flexible panel.
**Description**

This is the most used item of all and perfect for branding or directional.
Description

This can be used as eye-catcher, backdrop or various other purposes. Available in virtually any size you like.
FREESTANDING FRAME DOUBLE-SIDED

Description
This can be used as eye-catcher, backdrop or various other purposes. Available in any size you like. The slim frame in combination with high-quality textile banners make for a very nice object.
FREESTANDING LIGHTBOX SINGLE-SIDED

Description

Switching on the light behind your freestanding banner is a great way to improve the impact. Suddenly it attracts much more attention and colours will pop from the banner. The light is spread evenly throughout the whole textile banner to make sure everything is perfectly lit.

Special items

Indoor
Floor graphics are a great sponsor item, but can be used for directional signage as well. If you place a large floor graphic in the busiest areas, you are certain to get a lot of exposure. Be creative and choose a different shape to stand out even more.
Description
Posters are a cheap and easy way to show some extra information in certain places.
Description

This item is underestimated sometimes, but it has a very large impact. These posters can be placed in every toilet or above any urinal. Wherever there is no poster frame, we can use vinyl to create the same impact.
